

Polypropylene
Daploy™ WB140HMS
Description

Daploy WB140HMS is a structurally isomeric modified propylene homopolymer.

It is a long chain branched homopolymer

Applications

Daploy WB140HMS is recommended for

Foamed application in automotive, food packaging or other foamed sheet converting technologies.

Special features

Daploy WB140HMS is optimised to deliver:

High stiffness
 High service temperature
 Excellent processability

Foamability in foam extrusion processes
 Good insulation properties of foamed materials
 Good thermal and acoustic insulation properties

Physical Properties

Property	Typical Value	Test Method
Data should not be used for specification work		
Melt Flow Rate (230 °C/2,16 kg)	2,1 g/10min	ISO 1133
Tensile Modulus	2.000 MPa	ISO 527-2

Application Related Properties

Property	Typical Value	Test Method
Data should not be used for specification work		
Melt strength	36 c N	Borealis Method
Melt Extensibility	255 mm/sec	Borealis Method

Storage

Daploy WB140HMS should be stored in dry conditions at temperatures below 50°C and protected from UV-light. Improper storage can initiate degradation, which results in odour generation and colour changes and can have negative effects on the physical properties of this product.

Daploy is a trademark of Borealis group.
