

Technical Data Sheet

Petrothene PM92973

W&C Polyolefin Compound

**Product Description**

Petrothene PM92973 is a black masterbatch formulated to be melt blended with a LLDPE base resin for use in the extrusion of communications and power cable jacketing. Antioxidant, to ensure thermal stability, and a processing aid have been added. This masterbatch can also be successfully used with LDPE, MDPE, HDPE and PP resins.

Regulatory Status

For regulatory compliance information, see *Petrothene PM92973* [Product Stewardship Bulletin \(PSB\)](#) and [Safety Data Sheet \(SDS\)](#).

Status	Commercial: Active
Availability	North America
Application	Wire & Cable
Market	Wire & Cable
Processing Method	Wire & Cable

Typical Properties	Nominal Value	Units	Test Method
Physical			
Density, (23 °C)	1.14	g/cm ³	ASTM D1505
Additive			
Carbon Black Content	40	%	ASTM D1603

Notes

These are typical property values not to be construed as specification limits.

Processing Techniques

The combination of 93.5% base resin and 6.5% PM92973 will provide the optimum 2.6% carbon black content.

Specific recommendations for resin type and processing conditions can only be made when the end use, required properties and fabrication equipment are known.

Disclaimer

Before using a product sold by a company of the LyondellBasell family of companies, users should make their own independent determination that the product is suitable for the intended use and can be used safely and legally.

SELLER MAKES NO WARRANTY; EXPRESS OR IMPLIED (INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTY) OTHER THAN AS SEPARATELY AGREED TO BY THE PARTIES IN A CONTRACT.

Users should review the applicable Safety Data Sheet before handling the product.

This product(s) may not be used in the manufacture of any of the following, without prior written approval by Seller for each specific product and application:

- (i) U.S. FDA Class I or II Medical Devices; Health Canada Class I, II or III Medical Devices; European Union Class I or II Medical Devices;
- (ii) film, overwrap and/or product packaging that is considered a part or component of one of the aforementioned medical devices;
- (iii) packaging in direct contact with a pharmaceutical active ingredient and/or dosage form that is intended for inhalation, injection, intravenous, nasal, ophthalmic (eye), digestive, or topical (skin) administration;
- (iv) tobacco related products and applications, electronic cigarettes and similar devices.
- (v) safety components in automotive applications, for example: air bags, air bag unit housings and covers, seat belt mechanisms, brake systems, pedals and pedal supports, steering systems.

The product(s) may not be used in:

- (i) U.S. FDA Class III Medical Devices; Health Canada Class IV Medical Devices; European Class III Medical Devices;
- (ii) applications involving permanent implantation into the body;
- (iii) life-sustaining medical applications.

All references to U.S. FDA, Health Canada, and European Union regulations include another country's equivalent regulatory classification.

In addition to the above, LyondellBasell may further prohibit or restrict the use of its products in certain applications. For further information, please contact a LyondellBasell representative.
