

Adstif HA5034

Homopolymer

Product Description

Adstif HA5034 is a high crystallinity polypropylene homopolymer, which features an extremely high stiffness, high gloss and maintaining mechanical properties even at high temperatures. **Adstif HA5034** is selected by customers for use in the production of stiff injection moulded articles where high rigidity is needed. Typical applications of **Adstif HA5034** include food packaging containers, housewares, small appliances and technical parts. It is typically used by customers in small appliances and automotive compounding applications where high rigidity and very good thermal characteristics are required. **Adstif HA5034** is used in food contact.

Features Long term heat resistance and High HDT/ High Stiffness/ High surface hardness/ Good pigment dispersion

Market Automotive/Compounds, Consumer Products

Application Small appliances (Rice cooker case/ Microwave oven/ Electric Kettle etc.) /Auto compound/ Food packaging containers/ Housewares
