Polyethylene MDPE HR 515

Technical data sheet
Medium Density Polyethylene BLOWN FILM
Produced in Europe

Description

MDPE HR 515 is a medium density polyethylene produced with hexene as co-monomer. It shows a broad molecular weight distribution ensuring outstanding processability.

MDPE HR 515 is especially dedicated to high rigidity film applications, particularly in blend and/or coextrusion with LDPE and/or LLDPE.

MDPE HR 515 is suited for many film applications, in the field of consumer, industrial, food or hygiene packaging.
